## Trainee Patent Attorney with a background in physics, electrical engineering, computer science, mathematics

**You hold a university degree** in physics, electrical engineering, computer science or mathematics. You are now looking for a promising career in which you can make the most of your scientific training and analytical skills?

### Your Chance

A traineeship for becoming a patent attorney opens up extraordinary prospects for your future. You will receive an in-depth training in all areas of intellectual property law with us. Together with our experienced attorneys, you will oversee patent and trademark applications in the official grant procedures, take part in the strategic counselling of our clients and support our attorneys in adversarial court proceedings.

- You work in a permanent position at attractive conditions in a crisis-proof workplace in the western part of Munich.
- In a welcoming working atmosphere and a flat hierarchy, your ideas for improvement are always welcome.
- The quality of your training is a priority. The aim of your training is your future inclusion as a partner in our partnership.
- Flexible working hours and the option of working from home are a matter of course.
- You are entitled to 30 days of holiday per year; Christmas and New Year's Eve are off.
- You will be granted additional time off for examinations and their preparatory attendance courses.

### Your Skill Set

- MINT degree (Master's, ideally a PhD) with a consistently excellent academic record
- Talent for well-structured and thorough problem solving
- Curiosity and determination to familiarize yourself with new topics
- Proficient command of the English language (written)

### Your Future Employer

Our firm has been advising market-leading international clients in demanding technological and legal fields for more than 50 years. We see ourselves as a dynamic and innovative team for which quality has the highest priority. The partners of the firm are at the same time founders of IP.appify GmbH, a company which develops clever digital solutions for the world of intellectual property, for instance the translation software IP.Translator or the electronic patent law commentaries EPC.App and PCT.App.

### Are You Ready?

We look forward to receiving your application documents, which you are welcome to send to [career@weserkollegen.de](mailto:career@weserkollegen.de).
